Financial Statements For the year ended June 30, 2020

Room No. M1-M4, Mezzanine Floor, Progressive Plaza, Plot No. 5-CL-10, Civil Lines Quarter, Beaumont Road, Near Dawood Centre, Karachi-75530 Pakistan.

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF VENUS SECURITIES (PRIVATE) LIMITED REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

### Opinion

Ľ

We have audited the annexed financial statements of Venus Securities (Private) Limited which comprise the statement of financial position as at June 30, 2020, and the statement of profit or loss, statement of other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, statement of profit or loss, statement of other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2020 and of the profit, statement of other comprehensive income, the changes in equity and its cash flows for the year then ended.

### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Information Other than the Financial Statements and Auditors' Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017(XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) no zakat is deductible at source under the Zakat and Ushr Ordinance, 1980.
- e) the Company was in compliance with the requirement of section 78 of the Securities Act 2015, section 62 of the Futures Market Act 2016 and the relevant requirements of Securities Brokers (Licensing and Operations) Regulations 2016 as at the date on which the balance sheet was prepared.

The engagement partner on the audit resulting in this independent auditor's report is **Muhammad Yameen**.

VENUS SECURITIES (PRIVATE) LIMITED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2020

## 1 LEGAL STATUS AND NATURE OF BUSINESS

Venus Securities (Private) Limited was incorporated as a private limited company under the Companies Ordinance, 1984 (Now Companies Act, 2017) on June 06, 2007. The registered office is situated at 807, 8th floor New Stock Exchange Building, Stock Exchange Road, Karachi. The Company is a Trading Right Entitlement Certificate Holder of the Pakistan Stock Exchange Limited.

The principal activity of company is the business of stock brokerage and portfolio management.

A novel strain of coronavirus (COVID-19) that first surfaced in China was classified as a pandemic by 1.1 the World Health Organization on 11 March 2020, impacting countries globally including Pakistan. Government of Pakistan has taken certain measures to reduce the spread of the COVID-19 including lockdown of businesses, suspension of flight operations, intercity movements, cancellation of major events etc. These measures have resulted in an overall economic slowdown and disruptions to various business. However, currently, the potential impacts from COVID-19 remain uncertain, including, among other things, on economic conditions, businesses and consumers. The extent of these impacts on the Company are unclear. The Company is conducting business with some modifications to employee working and cancellation of certain events, among other modifications while following all necessary Standard Operating Procedures (SOPs). The Company will continue to actively monitor the situation and may take further actions that alter its business operations as may be required by federal, provincial or local authorities or that are in the best interests of our employees, customers, partners, suppliers and stockholders. However, the management based on its current assessment considered that there would be no significant impact that will adversely affect its businesses, results of operations and financial condition in future period.

#### BASIS OF PREPARATION

#### 2.1 Statement of Compliance

The Financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for financial reporting. The accounting and reporting standards as applicable in Pakistan comprise of:

- International Financial reporting standards (IFRS standards), issued by international Accounting standards Board (IASB) as notified under Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ from IFRS standards, the provisions of and directives issued under the companies Act, 2017 have been followed

#### 2.2 Basis of Measurement

These financial statements have been prepared under the historical cost convention except for investment which are carried at fair value, without any adjustments for the effects of inflation or current values.

### 2.3 Functional and presentation currency

The financial statements are presented in Pak Rupees, which is also the Company's functional currency. All financial information presented in Pak Rupees has been rounded to the nearest rupee.

### 2.4 Use of estimates and judgments

The preparation of financial statements in conformity with approved accounting standards as applicable in Pakistan, requires management to make judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgments made by management in the application of approved accounting standard as, applicable in Pakistan, that have significant effect on the financial statements and estimates with a significant risk of material judgment in the next year are as follows: -

#### **Property and equipment**

The Company reviews the rate of depreciation, useful life, residual value and value of assets for possible impairment on an annual basis. Any change in the estimates in future years might affect the carrying amounts of the respective items of property and equipment with a corresponding affect on the depreciation charge and impairment.

#### Intangible assets

The Company reviews the rate of amortisation and value of intangible assets for possible impairment on an annual basis. Any change in the estimates in future years might affect the carrying amounts of intangible assets with a corresponding affect on the amortisation charge and impairment.

#### Trade debts

Trade debts and other receivables are recognized initially at fair value and subsequently measured at amortized cost less loss allowance, if any. The Company measures the loss allowance for trade debts at an amount equal to lifetime expected credit losses (ECL). The expected credit losses on trade debts are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

#### Income taxes

In making the estimates for income taxes currently payable by the Company, the management looks at the current income tax laws and establish provision where appropriate on the basis of amounts expected to be paid to the tax authorities.

### 2.5 Standards, interpretations and amendments to approved accounting standards

There are new and amended standards and interpretations that are mandatory for accounting periods beginning 01 July 2019 other than those disclosed in 2.5.1, are considered not to be relevant or do not have any significant effect on the Company's financial statements and are therefore not stated in these financial statements

2.5.1 New standards, amendments to standards and IFRS interpretations that are effective for the year ended June 30, 2020

#### First time adoption of new Standards

#### IFRS 16 - Leases

With effect from July 01, 2019, the Company has adopted the International Financial Reporting Standard (IFRS) 16 Leases which replaced the previous lease accounting requirements contained in IAS 17 Leases, IFRIC Interpretation 4 Determining whether an Arrangement contains a Lease, SIC Interpretation 15 Operating Leases-Incentives and SIC Interpretation 27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

A contract is, or contains a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. The entity mainly leases properties for its operations. The entity recognizes a right-of-use asset and lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses if any, and adjusted for certain remeasurements of the lease liability. The right-of-use asset is depreciated using the straight line method over the shorter of the lease term and the asset's useful life. The estimated useful lives of assets are determined on the same basis as that for owned assets. In addition, the right-of-use asset is periodically reduced by impairment losses, if any.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the entity's incremental borrowing rate. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made. It is re-measured when there is a change in future lease payments arising from a change in an index or rate, a change in assessment of whether extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

The Company has elected not to recognize right-of-use assets and lease liabilities for some leases of low value assets. The lease payments associated with these leases are recognized as an expenses on a straightline basis over the lease term. The right-of-use assets are presented as separate line item in the statement of financial position.

The Company did not have any property leases arrangement therefore, adoption of IFRS 16 at 1 July 2019 did not have an effect on the financial statements of the Company.

#### 2.5.2 Standards, amendments and improvements to approved accounting standards that are not yet effective

The following revised standards, amendments and improvements with respect to the approved accounting standards as applicable in Pakistan would be effective from the dates mentioned below against the respective standards or interpretations:

#### Standard or Interpretation

Effective date (annual periods beginning on or after)

- IFRS 3

- Business Combinations: Amendments to clarify the definition of a business (Amendments)
- IAS 1 Presentation of Financial Statements and IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors': Amendments regarding the definition of

January 1, 2020

January 1, 2020

Standard or Interpretation

Effective date (annual periods beginning on or after)

| • IAS 39,<br>IFRS 9 &<br>IFRS 7 | Amendment for interest rate benchmark reform.   | January 1, 2020 |
|---------------------------------|---|-----------------|
| - IFRS 16                       | Amendment in 'LEASES' to provide practical relief for lessee in accounting for rent concession.                                 | June 1, 2020    |
| - IAS 1                         | Amendments in 'Presentation of Financial Statements' for<br>classification of liabilities as current or non-current             | January 1, 2022 |
| - IAS 37                        | Amendments in 'Provisions, Contingent Liabilities and<br>Contingent Assets' for Onerous contract-cos of fulfilling<br>contract. | January 1, 2022 |
| - IAS 16                        | Amendments in 'Property, Plant and Equipment' for proceeds before intended use.   | January 1, 2022 |

In addition to the above standards and amendments, improvements to various accounting standards have also been issued by the IASB. Such improvements are generally effective for accounting periods beginning on or after 01 January 2020. The Company expects that such improvements to the standards will not have any impact on the Company's financial statements in the period of initial application.

The IASB has also issued the revised Conceptual Framework for Financial Reporting (the Conceptual Framework) in March 2018 which is effective for annual periods beginning on or after 1 January 2020 for preparers of financial statements who develop accounting policies based on the Conceptual Framework. The revised Conceptual Framework is not a standard, and none of the concepts override those in any standard or any requirements in a standard. The purpose of the Conceptual Framework is to assist IASB in developing standards, to help preparers develop consistent accounting policies if there is no applicable standard in place and to assist all parties to understand and interpret the standards.

#### 2.5.3 Annual Improvements to IFRS standards 2018-2020

The following annual improvements to IFRS standards 2018-2020 are effective for annual reporting periods beginning on or after January 01, 2022.

- IFRS 9 The amendment clarifies that an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf, when it applies the '10 per cent' test in paragraph B3.3.6 of IFRS 9 in assessing whether to derecognize a financial liability.
- IFRS 16 The amendment partially amends Illustrative Example 13 accompanying IFRS 16 by excluding the illustration of reimbursement of leasehold improvements by the lessor. The objective of the amendment is to resolve any potential confusion that might arise in lease incentives.
- IAS 41 The amendment removes the requirement in paragraph 22 of IAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique.

The above amendments are not likely to affect the financial statements of the Company

#### 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### 3.1 Property and Equipment

These are initially measured at cost. Subsequent to initial recognition these are measured at cost less accumulated depreciation and impairment loss if any.

Subsequent costs are included in the asset's carrying amounts or recognised as a separate asset, as appropriate, only when it is probable that future benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Depreciation is charged to income using the straight line method at the rates specified in the relevant note. Monthly depreciation is charged on additions during the month while no depreciation is charged on assets in the month of disposal.

The Company reviews the useful lives and residual value of its assets on regular basis. Any change in the estimates in future years might affect the carrying amounts of the respective items of property, equipment with a corresponding effect on the depreciation charge.

Maintenance and normal repairs are charged to income as and when incurred.

Gain or loss on disposal of an asset is charged to profit and loss account.

#### 3.2 Intangible Assets

An intangible asset is recognized as an assets if it is probable that economic benefits attributable to the assets will flow to the company and cost of the assets can be measured reliably.

Intangible assets having finite useful lives are stated at cost less accumulated amortization and accumulated impairment losses, if any. Amortization is charged from the date the asset is available for use while in the case of assets disposed of, it is charged till the date of disposal. The useful lives and amortization method are reviewed and adjusted, if appropriate, at each reporting date.

Intangible assets having an indenite useful life are stated at cost less accumulated impairment losses, if any. An intangible asset is regarded as having an indefinite useful life, when, based on an analysis of all the relevant factors, there is no foreseeable limit to the period over which asset is expected to generate net cash inflows for the Company.

An intangible asset with an indefinite useful life is not amortized. However, the carrying amount is reviewed at each reporting date or whenever there is an indication that the asset may be impaired, to assess whether it is in excess of its recoverable amount, and where the carrying value exceeds the estimated recoverable amount, it is written down to its estimated recoverable amount.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in profit and loss account when the asset is derecognised.

#### 3.3 Financial instruments

#### 3.3.1 Initial Recognition

All financial assets and liabilities are initially measured at cost which is the fair value of the consideration given or received. These are subsequently measured at fair value, amortized cost as the case may be.

#### 3.3.2 Classification of financial assets

The Company classifies its financial instruments in the following categories:

- at amortized cost.
- at fair value through other comprehensive income ("FVTOCI"), or
- at fair value through profit and loss ("FVTPL"),

The Company determines the classification of financial assets at initial recognition. The classification of instruments (other than equity instruments) is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics.

#### Financial assets at amortized cost

Financial assets that meet the following conditions are subsequently measured at amortized cost:

- a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### Financial assets at fair value through OCI

Financial assets that meet the following conditions are subsequently measured at FVTOCI:

- a) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

However, Company may make an irrevocable election at initial recognition for particular investments in equity instruments that would otherwise be measured at fair value through profit or loss to present subsequent changes in fair value in other comprehensive income.

#### Financial assets at fair value through P&L

A financial asset is measured at fair value through P&L unless it is measured at amortized or at fair value through OCI.

#### 3.3.3 Financial liabilities

The Company classifies its financial liabilities in the following categories:

- at fair value through profit and loss ("FVTPL"), or

- at amortized cost.

Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or the Company has opted to measure them at FVTPL.

#### 3.3.4 Subsequent measurement

#### Financial assets at FVTOCI

Elected investments in equity instruments at FVTOCI are initially recognized at fair value plus transaction costs. Subsequently, they are measured at fair value, with gains or losses arising from changes in fair value recognized in OCI.

#### Financial assets and liabilities at amortized cost

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, and subsequently carried at amortized cost, and in the case of financial assets, less any impairment.

#### Financial assets and liabilities at FVTPL

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the statement of profit or loss and other comprehensive income. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in the statement of profit or loss and other comprehensive income in the period in which they arise. Where management has opted to recognize a financial liability at FVTPL, any changes associated with the Company's own credit risk will be recognized in other comprehensive income/(loss). Currently, there are no financial liabilities designated at FVTPL.

#### 3.3.5 Impairment of financial assets at amortized cost

The Company recognizes a loss allowance for expected credit losses (ECLs) on financial assets that are measured at amortized cost. Loss allowances are measured on the basis of life time (ECLs) that result from all possible default events over the expected life of a financial instrument.

Lifetime ECL is only recognized if the credit risk at the reporting date has increased significantly relative to the credit risk at initial recognition. Further, the Company considers the impact of forward looking information (such Company's internal factors and economic environment of the country of customers) on ECLs. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity and the cash flows that the Company expects to receive).

Provision against financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

#### 3.3.6 Derecognition

#### Financial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire or when it transfers the financial assets and substantially all the associated risks and rewards of ownership to another entity.

On derecognition of a financial asset measured at amortized cost, the difference between the asset's carrying value and the sum of the consideration received and receivable is recognized in profit or loss.

In addition, on derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss

In contrast, on derecognition of an investment in equity instrument which the Company has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to revenue reserve.

#### Financial liabilities

The Company derecognizes financial liabilities only when its obligations under the financial liabilities are discharged, cancelled or expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in the statement of profit or loss and other comprehensive income.

#### 3.3.7 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when there is a legally enforceable right to set off the recognized amount and the Company intends either to settle on a net basis or to realize the assets and to settle the liabilities simultaneously.

#### 3.4 Advances and Deposits

All short and long term advances and deposits are carried at nominal amount. Provisions are made for doubtful amounts. Irrecoverable amounts are written off to profit and loss account.

#### 3.5 Trade debts

These are classified at amortized cost and are initially recognised when they are originated and measured at fair value of consideration receivable. These assets are written off when there is no reasonable expectation of recovery. Actual credit loss experience over past years is used to base the calculation of expected credit loss.

Trade receivables in respect of securities sold on behalf of client are recorded at settlement date of transaction

#### 3.6 Cash and cash equivalents

These include cash in hand and bank balances and are carried at amortised cost.

#### 3.7 Trade and other payables

Trade and other payables are carried at cost which is the fair value of the consideration to be paid in the future for client trade and services received up to the year end, whether or not billed to the Company.

Trade payables in respect of securities purchased are recorded at settlement date of transaction.

#### 3.8 Taxation

Income tax expense comprises of current and deferred tax. Income tax expense is recognised in the profit and loss account, except to the extent that it relates to items recognised directly in statement of changes in equity or in which case it is recognised in equity.

#### Current

Provision for current taxation is based on taxability of certain income streams of the Company under presumptive / final tax regime at the applicable tax rates and remaining income streams chargeable at current rate of taxation under the normal tax regime after taking into account tax credits and tax rebates available if any

#### Deferred

Deferred tax is recognised using the balance sheet liability method on all temporary differences between the carrying amount of assets and liabilities used for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised. Deferred tax is charged or credited to the profit and loss account.

#### 3.9 Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

However, provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

### 3.10 Revenue

Brokerage commission, consultancy and other income are recognised as and when such services are provided and the performance obligation is satisfied.

Interest income is recognised on a time proportion basis using the effective interest rate of return.

Gain / (loss) on sale of securities are included in profit and loss account on settlement date basis.

#### 3.11 Expenses

All expenses are recognised in the profit and loss account on accrual basis.

#### 3.12 Impairment

#### Non-Financial assets

The carrying amounts of non-financial assets are assessed at each reporting date to ascertain whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. An impairment loss is recognized, as an expense in the profit and loss account, for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost to sale and value in use. Value in use is ascertained through discounting of the estimated future cash flows using a discount rate that reflects current market assessments of the time value of money and the risk specific to the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization. if no impairment loss had been recognised.

#### 3.13 Related party transactions

All transactions with related parties are carried out by the Company at arms' length price using the admissible pricing method

The Company's activities expose it to a variety of financial risks: capital risk, credit risk, liquidity risk and market risk (interest / mark-up rate risk and price risk). The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance. Overall, risks arising from the Company's financial assets and liabilities are limited. The Company consistently manages its exposure to financial risk without any material change from previous period in the manner described in notes below.

Risk managed and measured by the Company are explained below: -

a) Credit risk

b) Liquidity risk

c) Market risk

The Board of Directors has overall responsibility for the establishment and oversight of Company's risk management framework. All treasury related transactions are carried out within the parameters of these policies.

#### 22.1 Credit risk

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. Company believes that it is not exposed to major concentration of credit risk. To manage exposure to credit risk, Company applies credit limits and deal with credit worthy parties. It makes full provision against those balances considered doubtful and by dealing with variety of major banks and financial institutions.

The carrying amounts of financial assets represent the maximum credit exposure, as specified below: -

#### 22.2 Liquidity risk

4

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of adequate funds through committed credit facilities and the ability to close out market positions due to dynamic nature of the business. Company finances its operations through equity, borrowings and working eapital with a view to maintaining an appropriate mix between various sources of finance to minimize risk. The management aims to maintain flexibility in funding by keeping regular committed credit lines.

The following are the contractual maturities of financial liabilities, including estimated interest payments:-

| <i>w</i> _  |                    | - Still and the state of the st |                  |                       |

#### 22.3 Market risk

Market risk means that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices such as foreign exchange rates, interest rates and equity prices. The objective is to manage and control market risk exposures within acceptable parameters, while optimizing the return. Market risk comprises of three types of risk: foreign exchange or currency risk, interest / mark up rate risk and price risk. The market risks associated with the Company's business activities are discussed as under:-

#### Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign Currency risk arises mainly where receivables and payables exist due to transactions entered into foreign currencies.

Currently the Company is not exposed to any currency risk because the company is not dealing in any foreign currency transactions.

#### Interest / mark up rate risk

Financial assets and liabilities include balances of Rs. 37.35 million (2019 : Rs. 45.79 million) which are subject to interest rate risk. Applicable interest/mark-up rates for financial assets and liabilities have been indicated in respective notes.

Interest / mark-up rate risk is the risk that value of a financial instrument or future cash flows of a financial instrument will fluctuate due to changes in the market interest / mark-up rates. Sensitivity to interest / mark up rate risk arises from mismatches of financial assets and liabilities that mature or re-price in a given period. The Company manages these mismatches through risk management strategies where significant changes in gap position can be adjusted.

At the reporting date, the interest rate profile of the Company's significant interest bearing financial instruments was as follows: -

Carrying amount 2020 2019

Financial assets Exposure deposit

37,358,162 45,793,639

#### Sensitivity analysis

The Company does not account for any fixed rate financial asset and liabilities at fair value through profit or loss. Therefore, a change in interest rate will not effect fair value of any financial instrument and company does not have any variable rate instrument which effect profit and loss account and equity.

The following information summarizes the estimated effects of hypothetical increases and decreases in interest rates on cash flows from financial assets and liabilities that are subject to interest rate risk. It is assumed that the changes occur immediately and uniformly to each category of instrument containing interest rate risk. The hypothetical changes in market rates do not reflect what could be deemed best or worst case scenarios. Variations in market interest rates could produce significant changes at the time of early repayments. For these reasons, actual results might differ from those reflected in the details specified below. The analysis assumes that all other variables remain constant.

|  | Profit and le | oss 100 bp |
|--|---------------|------------|
|  | increase      | decrease   |
| As at June 30, 2020  |               |            |
| Cash flow sensitivity -Variable rate financial instruments | 373,582       | (373,582)  |
| As at June 30, 2019  |               |            |
| Cash flow sensitivity -Variable rate financial instruments | 457,936       | (457,936)  |

#### Price risk

Price risk represents the risk that the fair value of a financial instrument will fluctuate because of changes in the market prices (other than those arising from interest / mark up rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all or similar financial instruments traded in the market.

The Company's strategy is to hold its strategic equity investments for long period of time. Thus, Company's management is not concerned with short term price fluctuations with respect to its strategic investments provided that the underlying business, economic and management characteristics of the investee remain favorable which if not, impairment loss has been recognised and other opportunities may be considered. Company manages price risk by monitoring exposure in quoted equity securities and implementing the strict discipline in internal risk management and investment policies.

The carrying value of investments subject to equity price risk are, in almost all instances, based on quoted market prices as of the reporting date except for, unquoted associates which are carried at fair value determined through latest sales price. Market prices are subject to fluctuation and consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Fluctuation in the market price of a security may result from perceived changes in the underlying economic characteristics of the investee, the relative price of alternative investments and general market conditions. Furthermore, amount realized in the sale of a particular security may be affected by the relative quantity of the security being sold.

#### Sensitivity analysis

June 30, 2020

June 30, 2019

The table below summarizes Company's equity price risk as of June 30, 2020 and 2019 and shows the effects of hypothetical 10% increase and a 10% decrease in market prices as at the year end. The selected hypothetical change does not reflect what could be considered to be the best or worst case scenarios. Indeed, results could be worst because of the nature of the equity market and aforementioned concentrations existing in company's equity investment portfolio.

|     | 1 1 | Fair Value | Hypothetical<br>price change | Estimated<br>fair value<br>after<br>hypothetical<br>change in<br>prices | Hypothetical<br>increase<br>(decrease) in<br>Shareholders'<br>Equity |

#### 22.4 Fair value of financial instruments

The carrying values of the financial assets and financial liabilities approximate their fair values. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in arm's length transaction.

#### 22.5 Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows: -

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable).

|  | Level 1    | Level 2 | Level 3 |
|--|------------|---------|---------|
|  |            | Rupees  |         |
